

CAPABILITY STATEMENT

PRIVACY | AI GOVERNANCE | REGULATORY

WOMEN-OWNED SMALL BUSINESS (WOSB) | WASHINGTON, DC

UEI: KLNAB8KBFZ8 | CAGE: 7WQL5

COMPANY OVERVIEW

Nelson Law Firm, PLLC provides strategic legal and advisory services at the intersection of data privacy, artificial intelligence (AI), and regulatory compliance. We help government agencies, prime contractors, and organizations translate evolving requirements into practical governance frameworks, policies, risk controls, training, and scalable compliance programs.

CORE COMPETENCIES

Privacy Compliance & Governance

- U.S. and global privacy regulatory compliance
- Privacy program development, maturity assessments, and remediation roadmaps
- Privacy Threshold Analyses (PTAs), Privacy Impact Assessments (PIAs), and Data Protection Impact Assessments (DPIAs)
- Data processing, sharing, retention, and third-party governance

AI Governance & Responsible AI

- AI governance frameworks, policies, standards, and accountability models
- AI risk assessments, governance controls, and use-case review
- National Institute of Standards and Technology (NIST) AI Risk Management Framework alignment
- Transparency, human oversight, fairness, and responsible AI implementation

Regulatory Strategy & Advisory

- Translation of privacy and AI requirements into operational controls
- Regulatory readiness, gap analysis, and compliance remediation
- Strategic guidance for product, technology, data, and business teams
- Emerging-law monitoring and implementation strategy

Program Development, Policy & Training

- Privacy and AI governance program design and implementation
- Policies, procedures, playbooks, and compliance resources
- Executive and workforce privacy and AI governance training
- Governance processes integrated into product and system lifecycles

REPRESENTATIVE EXPERIENCE

Federal Privacy: Experience supporting federal privacy programs and requirements involving the Federal Energy Regulatory Commission (FERC), Federal Aviation Administration (FAA), Pension Benefit Guaranty Corporation (PBGC), and U.S. Department of Education.

Commercial & Emerging Technology: Privacy-by-design, product counseling, consumer privacy, data governance, AI governance, and responsible AI advisory in technology and healthcare environments.

Teaming: Senior-level specialized privacy and AI governance support that can integrate into larger federal, state, and local prime-contractor teams.

DIFFERENTIATORS

Legal + Operational Perspective

Turns legal requirements into implementable governance and compliance controls.

Nearly 20 Years of Privacy Experience

Federal, technology, healthcare, product, and commercial environments.

AI Governance Leadership

Experience advising on AI risk, governance, product use cases, and responsible AI.

Federal Privacy Depth

Privacy Act, E-Government Act, Office of Management and Budget (OMB), NIST, and federal privacy lifecycle requirements.

Specialized Teaming Partner

Senior-level expertise for discrete privacy, regulatory, and AI-governance workstreams.

CERTIFICATIONS
